

Conformation PFAS

21.Nov.2024

Dear Ladies and Gentlemen,

We confirm that all connectors and cable assemblies supplied by W+P PRODUCTS GmbH are in accordance with the current PFAS Directive of the (EU) in the currently valid versions and the respective appendices.

The already relevant PFAS substances are listed in the current REACH-SVHC as well as in the POP Stockholm appendices. Other PFAS substances are listed in the US TSCA.

We can confirm that our products do not contain PFAS listed under the above regulations.

We currently decline to confirm any other individual PFAS lists that may exist but are not part of the lists mentioned above.

You can find our REACH, POP and TSCA statements on our website <https://wppro.com/downloads>.

This confirmation applies to all of our products and packaging materials

Should one of our articles fail to comply with any of the prohibitions / restrictions or one of the prohibited / restricted items we will inform you immediately which items are affected and inform you of the respective substance names.

We will keep you informed of any changes / modifications to our items if those changes affect the compliance with PFAS rules.

Kind regards

Peter Schneider
Head of quality management
