## **DECLARATION: PFAS REPORTING UNDER TSCA**

The United States Toxic Substances Control Act (TSCA) is a federal regulation that allows the Environmental Protection Agency (EPA) to comprehensively manage chemicals in U.S. Commerce. This includes reporting requirements under TSCA Section 8(a)(7), which apply to perfluoroalkyl and polyfluoroalkyl substances (PFAS). TSCA mandates the reporting of certain information from U.S. manufacturers of all PFAS chemicals, including PFAS created as manufacturing byproducts. Reporting is also required for PFAS imported into the United States, whether on their own or as an incorporated article component.

PFAS are a large and complex group of chemicals; TSCA PFAS requirements apply to all types of PFAS used in U.S. commerce, as defined by the EPA's Chemical Data Reporting (CDR) database. More information is available from [the EPA's TSCA PFAS webpage](#).

We confirm that all W+P PRODUCTS GmbH products, connectors and cables, deliver to you are up to the direction produced without PFAS.

Our suppliers are contractual obliged to work conform up to this direction.

Best regards
