

SHORTFORM

- A** Stiftheisen & Jumper in Rastermaßen 0,80 bis 5,08mm
Pin Headers & Jumpers in Pitches from 0.80 to 5.08mm
- B** Buchsenleisten & Kodierbrücken in Rastermaßen 0,80 bis 5,08mm
Female Headers & Jumper Links in Pitches from 0.80 to 5.08mm
- C** D-Sub & Centronics Steckverbinder, Hauben & Zubehör
D-Sub & Centronics Connectors, Hoods & Accessories
- D** IC-Fassungen, IC-Leisten
IC Sockets, IC Headers
- E** DIP-Schalter
DIP Switches
- F** IDC-Steckverbinder & Kabel für Flachbandkabelverbindungen
IDC Connectors & Cables For Flat Cable Connections
- G** Modular-Steckverbinder & Modular-Einbaubuchsen
Modular Connectors & Modular PCB Jacks
- H** Card Edge Verbinder in Rastermaßen 0,80 bis 2,54mm
Card Edge Connectors in Pitches 0.80 to 2.54mm
- K** Kabel-zu-Leiterplatten Verbinder in Rastermaßen 1,00 bis 6,35mm
Wire-To-Board Connectors in Pitches from 1.00 to 6.35mm
- L** ZIF-, LIF-Verbinder & Flex-Kabel
ZIF, LIF Connectors & Flexible Flat Cables
- M** Leiterplatten-zu-Leiterplatten Verbinder
Board-To-Board Connectors
- N** Multimedia Steckverbinder
Multimedia Connectors
- P** Verbinder & Klemmen für LED und Leistungsströme
Connectors for LED and Power Applications
- W** Wasserdichte Steckverbinder

W+P ist Ihr Partner für zuverlässige Steckverbinderlösungen rund um die Leiterplatte.

Mit einem vielfältigen Produktportfolio im Standardbereich und einem reichen Erfahrungsschatz für maßgeschneiderte Applikationen finden wir auch für Sie die ideale Lösung!

Unser Shortform-Katalog zeigt einen Überblick unserer Palette an Standard-Artikeln, die sicherlich für die meisten Anwendungen eine kosteneffektive, qualitativ hochwertige Verbindungskomponente für Sie bereithält.

Passt keines unserer Katalogprodukte? Wir freuen uns, auch Ihnen unser Know-How als Projektpartner zur Entwicklung kundenspezifischer Bauteile zur Verfügung zu stellen.

Wie können wir Sie unterstützen? Lassen Sie uns gemeinsam die für Sie ideale Lösung finden, bitte sprechen Sie uns an, Tel.: 05223 98507-0 oder sales@wppro.com

W+P is your partner for reliable connector solutions with focus on PCB applications.

With our varied portfolio in standard versions and a wide expert knowledge in customized components, we will also find the optimized solution for you.

This brochure is intended to give an overview of the range of our standard products, which will surely provide cost-effective, high quality connector solutions for the most of your requirements.

We would be glad to apply our know-how as a project partner for tailor-made applications, if you cannot find suitable catalogue based components.

How can we assist you? Let us jointly find the ideal solution, please feel free to contact us, phone: 0049 5223 98507-0 or sales@wppro.com

Umfassendes Spektrum an THR-fähigen Steckverbindern spart Kosten und Zeit

Zeitgleiches Verlöten von THT- und SMT-Steckverbindern in einem einzigen Reflow-Lötgang spart Kosten und Zeit.

Die Bauteilgeometrie wird für den THR (Through Hole Reflow) Prozess ausgelegt.

Die Kontaktlängen sind für sicher beurteilbare Lötstellen konstruiert und an unterschiedliche Leiterplattenstärken anpassbar.

Abstandshalter zur Leiterplatte sorgen für einen optimalen Wärmetransport zur Lötstelle. Eine Ausstattung mit Pick-and-Place-Pads und die Lieferung in Tape&Reel-Verpackungen oder in Tubes ist möglich.

Comprehensive range of THR-compatible connectors save cost and time

Simultaneous soldering of THT and SMT connectors in a single reflow process will save you cost and time. The component geometry is designed for the THR (Through Hole Reflow) process. The length of the contacts are designed for easy access to solder points and can be optimized for different PCB thicknesses. Spacers to the PCB ensure excellent heat transport to the solder point. Pick&Place pads can be fitted and delivery in Tape&Reel packaging or in tubes is possible.

W+P als Projektpartner zur Entwicklung kundenspezifischer Steckverbinder

Nicht immer passt die Kataloglösung – wir entwickeln mit unseren Kunden gemeinsam technisch und wirtschaftlich optimale Steckverbinderkonzepte.

Auch in der laufenden Produktion sind wir in der Lage Änderungen kurzfristig umzusetzen oder zusätzliche Varianten zu schaffen. Denkbar ist auch die Entwicklung baugleicher, aber abgekündigter Steckverbinder.

Einfache Verarbeitbarkeit in der Elektronikproduktion, idealerweise in automatengerechter Ausführung, ist die Voraussetzung für Wirtschaftlichkeit.

W+P – Your project partner for developing customized connectors

The catalogue solution is not always the right one – we develop technically and economically optimized connector concepts in collaboration with our customers. We are able to implement modifications or create additional versions quickly during ongoing production. We focus on easy implementation in electronic production, ideally in a design suitable for automatic assembly, as a way to economical advantages.
